Risk Advisory Services Presentation

Deloitte in Georgia organized a Risk Advisory Services presentation on 5 December at the Radisson Blu Iveria Hotel Tbilisi on the newly established service line at the Deloitte Tbilisi office, comprising the following areas:

1. Cyber security;
2. Information security;
3. Personal data protection; and
4. IT/IS Audit.

In addition to familiarizing themselves with Deloitte's new service lines and meeting the new professional team, participants had the opportunity to learn more about the existing regulations in information security, personal data protection, and other relevant areas from the regulatory bodies and gain an understanding of the overall situation in the country in this regard.

The list of attendees included some of the largest organizations from the public and private sector with operations in Georgia.

Participants were actively involved in the workshop, which proved to be very interesting and productive based on the feedback we received from the attendees.

MORE

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients. Please see www.deloitte.com/about for a more detailed description of DTTL and its member firms.

Deloitte provides audit, consulting, financial advisory, risk management, tax and related services to public and private clients spanning multiple industries. Deloitte serves four out of five Fortune Global 500® companies through a globally connected network of member firms in more than 150 countries bringing world-class capabilities, insights, and high-quality service to address clients' most complex business challenges. To learn more about how Deloitte's approximately 225,000 professionals make an impact that matters, please connect with us on Facebook, LinkedIn, or Twitter.
