

TEGETA

**SUSTAINABILITY
REPORT 2023**

THE FIRST SUSTAINABILITY REPORT OF TEGETA HOLDING

Tegeta Holding, for the first time in the automotive sector in the Region, released its first Sustainability Report, highlighting the company's 2023 corporate responsibility activities and achievements in environmental responsibility, employee well-being, safety and community support.

An extensive document was prepared in accordance with international standards (GRI, SDGs) and is now available at – [Tegeta.ge](https://tegeta.ge). The report combines information about the company's values and principles, management structure, its ethical approaches to customers, employees and partners, policies developed within the framework of responsible business activities and other CSR projects. The report summarizes the social and environmental impacts of the company's operations and responds to the UN's Sustainable Development Goals.

Tegeta's corporate social sustainability report was prepared based on the priorities outlined in the company's CSR strategy. Worth mentioning that Tegeta was the first large Georgian company to pioneer a CSR strategy based on international standards in 2022 and set the course for the company's actions until 2030.

CSR projects and initiatives implemented by the company in 2023 brought Tegeta various prestigious awards and recognition from local and international juries as a result of its progressive steps and genuine good influences.

Tegeta's transparency document will be a baseline for analyzing, measuring and achieving the set goals of sustainable development.
